

# DW-9015D

## Product Description

- Conductive Double coated Acrylic Adhesive Tape
- Conductive Fabric Taffeta
- Conductive Acrylic Adhesive
- Tape for EMI/RFI Shielding

## Product Structure

## Technical Data

Classification		Unit	Value	Test Method
Thickness	Backing	μm	130 ± 2	KS T 1028
	Total		150 ± 5	
Peel Strength		g/25mm	1600	
Electrical Resistance Through Adhesive		Ω	0.05↓	Hioki 3540 1kg Pressure
Heat Resistance (Holding Power)		℃	Good	110℃/500g Heating Oven

## Dimensions

Roll Width (mm)	Roll Length (M)

## Shelf Life

Product retains its performance and properties for 12 months from date of manufacture when stored in original cartons at room temperature & 50%RH
