

DW-9050D

Product Description

- Conductive fabric double-coated adhesive tape.
- Good adhesion and holding power.
- Excellent electrical resistance.

Product Structure

Technical Data

Classification		Unit	Value	Test Method
Thickness	Backing	μm	30	KS T 1028
	Total		50	
Peel Strength		g/25mm	1300	
Electrical Resistance		Ω	0.05↓	
Holding Power		mm/hr	1↓	
Heat Resistance		℃	Good	

Dimensions

Roll Width (mm)	Roll Length (M)

Shelf Life

Product retains its performance and properties for 12 months from date of manufacture when stored in original cartons at room temperature & 50%RH
